Family Ceili An Irish Family Evening with STEYsha School of Irish Dance

An evening of family fun, on Irish rhythms, the opportunity to socialize and to move in a welcoming environment.

On the 4th of February 2011, STEYsha School of Irish Dance is launching a new series of Irish - dancing - cultural events, the Family Ceili evenings (phonetically: keili). The event is addressed to parents and children between four and ninety years of age - if you are a parent, bring your children, if you are a child, bring your parents and if you are both, dare and bring them all!

During the first Family Ceili, the participants will learn the basic Irish Dancing steps used in social Irish dancing (the Ceili dances), as well as such a traditional choreography, that is guaranteed to bring smiles on everyone's faces. For sure, a ceili dance of the entire family will be something to be proud of and that you will be able to reproduce for any type of family or community event. The evening's surprise is our friend and colleague, Guénaél Morin, from Brittany, who will teach us all a Breton dance.

All this fun is going to take place in strada Cameliei, no. 39, in a loft with Irish looks and soul. For an evening of Ceili fun, STEYsha School of Irish Dance suggests you wear clothes fit for dancing.

We wish this event to come in support to all the campaigns of the type "Sport for health" and STEYsha wishes to encourage families to spend more time together, in doing activities that are pleasing and common to all of their members.
